

WHO WE ARE

Borderless Brigade, Inc. was founded as a humanitarian non-profit organization operating under the regulations governing an IRS designated 501(c)(3) corporation to administer relief to individuals living in poverty.

Borderless Brigade believes it to be the responsibility of each individual to reach out to other individuals that need help no matter where they live. Many organizations are involved in much needed worldwide efforts to relieve the same conditions we have outlined in our Mission Statement. These organizations are needed and in need of our support, however where their efforts are often structured to meet specific worldwide or regional needs, Borderless Brigade is structured to reach the needs of individuals. Because Borderless is able to send multifunctional brigades of professionals along with supporting personnel, it is able to examine the needs of the individual.

Our mission is accomplished most effectively as we send a brigade of specialized brigades. Each specialized brigade is aware of the expertise and skills of the other brigades. Because of this we can address the overall need of an individual. One example of this would be that a medical professional treats a person for a medical complaint but notices during the medical examination the need for immediate dental care. This person would be given a dental clinic registration card and allowed treatment offered by the Dental Brigade.

OUR BRIGADES

"I am grateful to acknowledge the great work of the brigade that has visited our city this week. They treated many of our people and distributed to all that came medical care, dental care, medicines, eye glasses, food and clothes."
Francisco Gaitan Aguero
Mayor Cantarranas, Honduras

"Borderless Brigade provides an avenue for North Americans to provide the people of Central America with goods and services that we all take for granted. These are things that they cannot afford or do not even have accessible to them. On my trips to Honduras, we provided thousands with food, clothing, medicine and, most importantly, the Good News of Jesus Christ. Witnessing the grateful and joyful hearts of the Central American people is a life-changing experience." Brent J. Morris, MD Jackson, TN

"I have been traveling to Central America each year for the past 6 years working with the Dental Brigade. What a great way to pay it forward in a most rewarding way"
Pam Keel, Olive Branch, MS

YOUR EMISSARY

BORDERLESS BRIGADE

Borderless Brigade is an organization purposed to equip and dispatch multifunctional skilled brigades to meet basic human needs in practical ways to impoverished communities regardless of location. This is accomplished through meeting the medical, dental, optical, nutritional, clothing and shelter needs of individuals and by providing veterinary care for their livestock and pets. Borderless Brigade is your emissary equipping, embracing and enhancing lives wherever sent.
